

The Cleft Lip & Palate Association (CLAPA) is the only UK organisation that offers long-term support to parents of children born with a cleft.

CLAPA offers **emotional support and advice** both before and after birth. We are the **sole UK provider of specialised bottles and teats**, and supply new parents with a **free starter pack of bottles and teats** along with several **information booklets**.

We have a **network of trained volunteers** across the country, mostly parents of children with a cleft, who are on hand to talk over the phone or face to face at any time should new parents want to.

HOW CAN YOUR MONEY HELP?

- **£15** will cover the cost of a baby starter pack containing essential bottles, teats and literature.
- **£20** will provide a complete set of literature for a new family.
- **£50** will enable CLAPA to equip a maternity unit with an information folder and CD Rom to be used by midwives and new families.
- **£100** will pay for a day's placement at CLAPA's confidence building children's camps.
- **£200** will pay for a breast pump for a hospital, so that every mother who wishes to is able to breast milk feed her baby.

**WITHOUT YOUR HELP, WE WOULD NOT BE ABLE TO MAINTAIN THESE
INVALUABLE SERVICES.**

THANK YOU!
